## BOMBARDMENT OF MATANZAS

By the New York, Cincinnati and the Monitor Puritan.

### MARKSMANSHIP WAS PERFECT.

The Fortifications Utterly Destroyed. Spanish Gunners Were Wild. Loss of Life Heavy.

By Wire to THE TELEGRAM.

On board the Flagship New York, April 28—Captain Sampson yesterday afternoon, silenced and pretty well destroyed the Spanish batteries in position and those in course of construction at the entrance of the harbor of Matanzas. The vessels used in the bombardment were the armored cruiser New York, the protected cruiser Cincinnati and the monitor Puritan. The Spanish gunners are poor marksmen and their shots went wild and failed to strike any one of the American ships.

### SPAIN OPENS HOSTILITIES.

While the boats reconnoitering for the purpose of locating and destroying the formidable defenses being constructed, the flagship New York was fired upon by the batteries located at Pointe Rubalcaya and Pointe Maya which are used to guard the entrance to the harbor. The New York replied with one of her forward eight inch guns which is located under the boom. The flagship steamed boldly between the batteries and fired a broadside at each battery. The Puritan steamed behind the New York and engaged the fortifications at Pointe Maya, while the flagship went to the right side of the harbor and coming close up to land poured shells into Pointe Rubalcaya. The cruiser Cincinnati remained astern under orders but she soon signalled for permission which was signalled to her and soon she was firing her guns at the fort on the west side of the bay.

### COULDN'T HIT 'EM.

The batteries fired explosive shells but most of them fell wide of the mark. One burst just beyond the New York and a shrapnel exploded above her. The three ships silenced the forts in just eighteen minutes. The last shot fired from the forts came from Pointe Rubalcaya. The Puritan replied with one of her twelve inch guns. The shell struck the battery with wonderful accuracy and blew up a portion of the fort.

After waiting in vain for the Spanish guns to renew the engagement the American ships withdrew, leaving the forts in ruins.

When Sampson left the cruising ground today to visit Matanzas and Cardenas, he made up his mind that something had to be done with the fortifications for every aggressive Spanish artilleryman was manning batteries out that way. They had twice fired on the torpedo boat Foote and were busily engaged in erecting fortifications and placing guns. At Matanzas, the New York found the Puritan and Cincinnati blockading the port. Sampson decided to make a reconnaissance then for the purpose of locating the batteries and discovering the kind of guns that had been mounted and to decide on what measures would be necessary to stop further fortifying.

### ORDER OF BATTLE.

The New York led the way with the Puritan a few hundred yards behind her and the Cincinnati behind a slightly greater distance. The firing soon became general and the marksmanship of the gunners was perfect. Though it was a long distance—about four thousand yards between the boats and the batteries—nearly all the shells fell within the fortifications. The New York reduced the range to three thousand yards and tossed three shells a minute into Rubal Caya.

The Cincinnati, which had signalled that it be allowed permission to engage and the same being granted by the flagship, steamed broadside and began to let fly. The best shot was made by the Puritan, which struck squarely a gun of the battery doing great destruction.

The New York returned to her blockade leaving the Puritan and Cincinnati guarding the blockade. The ships fired eighty-six shots, and the forts about twenty-five.

### THE CONCLUSIONS.

The conclusions which have been drawn from the result of the bombardment are that Havana is absolutely at the mercy of our fleet.

The loss of life in this engagement is supposed to be heavy.

### The Negroes Sunbbed.

In the Winston municipal convention night before last, a number of negro delegates were unseated, so it is reported, because they favored the re-nomination of the present mayor for that office. When Hawkins, a colored delegate from the Fifth ward, arose to a point of order, the chairman called him down and recognized ex-Major Alexander, who was a not a delegate to the convention. Hawkins was a Crutchfield man, and the chairman showed by his rulings that he was against the present mayor.

While the committee on credentials was out considering contests, it was decided to bring in a contest from the Fifth ward. Then it was that the colored men saw their wishes were to be ignored, and they withdrew from the convention, as did also Mayor Crutchfield and a number of his white friends.

T. S. Wilson was then made the republican nominee for mayor of Winston. Postmaster Lybrook, who, in the last campaign haranged the negroes and helped hold them in line for McKinley and Russell, it is said helped to choke them off in the municipal convention.

A third ticket will probably be put in the field.

### Trouble With the Twins.

"Sure an' the trouble is with the twins, mum. One of them is cryin' because he swallowed his rattle, and the other is howlin' out 'o' sympathy, and betwixt the two of them bawlin' I can't tell which one swallowed the rattle."—Harper's Bazar.

Col. A. C. McAllister, of Ashboro, was among the visitors to High Point yesterday.

## NOT ALLOW GUNS MOUNTED

Matanzas Fortifications Will Not Be Rebuilt.

### PRESIDENT INSTRUCTS SAMPSON

Congress Will Sit During The War. The Monitor Terror Captures Spanish Steamer Guido.

By Wire to THE TELEGRAM.

Washington, April 28—Secretary of Navy Long states that he has no information of the bombardment of Matanzas. A member of the Naval Strategic board said he did not believe the town had been attacked but that if Sampson had fired it would be on outside forts so he could learn something of their armaments. It is rumored however that orders had been sent to Sampson to bombard the coast wherever batteries were being erected and to prevent any extended defense being made when the time came for the landing of the United States troops.

Army officials now say that there will not be any large force sent to Cuba until November, which will be after the rainy season is over. The conclusion reached is that the climate at this time of the year is too deadly.

### PRESIDENT INSTRUCTS SAMPSON.

Washington, April 28—A full report of the bombardment of Matanzas has been received by the navy department. President McKinley has instructed Commander-Sampson to prevent the establishments of fortifications.

### ANOTHER CAPTURE.

Key West, April 28—The Monitor Terror this morning captured the Spanish steamer Guido which was loaded with supplies for the Spanish army in Cuba. The Terror fired two solid shots at her and the Spaniard gave up.

Later—the Guido had her pilot house shot off and a member of the crew was wounded. The vessel was hit several times and put out her lights in endeavoring to escape.

### They Broke Camp.

## NEGROES RECRUITING FAST.

They are Preparing for the Grim Realities of War.

Another meeting of colored citizens was held at the Odd Fellows hall last night, and amid growing enthusiasm and patriotic fervor, recruits were added to the two companies, making the strength of the Russell Light Infantry 94 men, and of Waywood's company 92 men.

The same sort of spirit seems to prevail among the colored people all over the State. The Adjutant General received a telegram last night stating that the company at Newbern now numbers eighty men.

Recent recruits added to the negro company at Charlotte bring that company up to the required strength, and it is now awaiting orders.

A company has been formed at Wilson, and companies have also been formed in about ten other places in the state.

In all likelihood such colored companies as volunteer will be brigaded with similar companies from Virginia. —News and Observer.

## THE STATE FIRST.

The letter of William J. Bryan to National Committeeman Josephus Daniels has settled the question as to whether Mr. Bryan favors fusion in this state. It is well known that Mr. Bryan's devotion to the principles laid down in the democratic platform of 1896 causes him to favor fusion as a general principle. It is not to be expected that he should understand the intricacies of North Carolina politics. It is only natural therefore that he should advise fusion. He advises it, as he states in his letter, because he believes it will contribute to the ultimate success of the party. Democrats in North Carolina, however, are in a position to be better judges of the wisdom or unwisdom of such a course than Mr. Bryan can possibly be. A large number of democrats in this state believe that to fuse with the populist party this year, so far from enhancing, would utterly destroy the party's chance of success in 1900. With all due respect to Mr. Bryan's opinion therefore democrats in this state should follow their own light. The interests of the citizen are touched more intimately by the state than by the national government. It is the state that governs in all those matters of every day life and intercourse, the right or wrong administration of which constitutes good or bad government.

Our people have learned, during many years of national misgovernment by the republican party, that if the state government be in clean and capable hands it is possible to be happy and prosperous as such things go. The democratic party in this state is anxious for the success of the national party, but following the good old democratic doctrine of looking carefully after the local government, it will see to it at all hazards that North Carolina, first of all, is purged of the stigma of the present mal-administration.

Thus far the losses we have sustained have been from Spain's operations under water instead of on the surface of it.

Many a treasure ship has been captured on the "Spanish main." Spain might now get even by going after a few on the Klondyke main.

The talk that is being indulged in at present about the unity of races is more frothy than sensible. Frenchmen have been quite as willing to cut a Spanish or Italian throat as an English or a German one. Fifty per cent. of all the wars of the last century and a quarter have been between nations of the same race. All of our wars save one have been with men speaking the English tongue. The strongest bonds binding nations together in these late days of the century are those that have coupons attached.

Both at headquarters and in the various towns of the state having military companies more or less dis-appointment is manifested at the failure of the militiamen to volunteer. This is not due so much to a lack of

patriotism or to a fear of Spanish bullets as to a feeling that we are so big that Spain cannot do us much harm anyway and to a belief that the issue will be decided by our warships. The militiaman is naturally averse to losing several months from his business and spending them in camp under military discipline only to find that in the end his services will not be required. When American arms shall have met their first reverse watch out for a true manifestation of American spirit. The militiamen like other folks do not realize that war has begun.

## MR. KITCHIN'S BILL.

Introduced in the House of Representatives Yesterday.

A bill to prevent increased burdens of taxation on the people and to provide means for the support of the government in the war with Spain, and for the coinage of silver.

Be it enacted by the senate and house of representatives of the United States of America in congress assembled,

That the secretary of the treasury be, and he is hereby, authorized and directed, as the exigencies of the public service require, for the payment of the army and navy and other creditors of the government, to issue on the credit of the United States the sum of five millions of dollars of United States notes, in such form as he may deem expedient, not bearing interest, payable to bearer, and of such denominations, not less than one dollar, as he may prescribe, which notes so issued shall be lawful money and a legal tender in payment of all debts and dues, public and private, within the United States; and any of said notes when received by the treasury shall be reissued as the service may require. And when any of said notes may be redeemed, as hereinafter provided, they shall not be retired, canceled, or destroyed, but shall be reissued, paid out again, and kept in circulation. The said notes shall be redeemed by the secretary of the treasury in coin, on their presentation at the office of the treasurer of the United States when redeemable, as hereinafter provided. The said notes herein authorized shall be divided into ten classes of fifty million of dollars each, to be known as class A, B, C, D, E, F, G, H, I, and J, respectively, and the notes of the several classes shall be so marked or engraved as to distinctly show the class to which each note belongs, and the notes in the several classes A, B, C, D, E, F, G, H, I, and J shall be redeemable only in the years nineteen hundred, nineteen hundred and one, nineteen hundred and two, nineteen hundred and three, nineteen hundred and four, nineteen hundred and five, nineteen hundred and six, nineteen hundred and seven, nineteen hundred and eight, and nineteen hundred and nine, respectively, and in every tenth year thereafter, respectively.

Sec. 2. That the secretary of the treasury be, and he is hereby, authorized and directed to cause to be coined at the several mints of the United States, without delay, for the government, all the silver bullion or seigniorage belonging to the United States into silver dollars of the weight of four hundred and twelve and one-half grains of standard silver, as provided in the Act of January eighteen, eighteen hundred and thirty-seven, on which shall be the devices and supercriptions provided in said Act, which coins, together with the standard silver dollars now in circulation, shall be a legal tender at their nominal value for all debts and dues, public and private.

Sec. 3. That the proper officers of the several mints of the United States are hereby authorized and directed to receive silver bullion from the holders thereof when offered for coinage, and to coin the same for the benefit of said holders into such silver dollars as are provided for in Sec. two of this Act, upon the same terms and conditions on which said officers now receive and coin gold bullion for the benefit of its holders; and the silver dollars so coined shall be a legal tender at their nominal value for all debts and dues, public and private.

## Why He is Not Going.

A good story was being told on the streets yesterday of a negro's idea of modern warfare.

An old negro was asked if he was going to Cuba to fight.

"No, sah, dis chile ain't gwine no whar. Ain't you heard about dem big guns what dey got now?"

"No, what about them?"

"Why, dey's de most powerfullest guns you ever saw. Dey shoots fifteen miles, then the ball rolls six miles and blows up and it rains rocks and bullets for three days. Umph, um! Dis chile ain't gwine to no wa'."—News and Observer.

Leipzig students are going to erect in that city a statue of Goethe, who for a time studied at the university there. It will represent the poet as a very young man, and, it is hoped, will be ready by August of next year, the 150th anniversary of the poet's birth.

## RAIDS FROM MEXICO.

Texas Citizens Ask to Organize Cavalry to Protect Their Property.

Austin Tex., April 26—The Mexicans of Dewitt and adjoining counties have organized themselves into armed bands and are riding through the towns and country, threatening to destroy the property of Americans and commit murder if opposition is offered them. Col. Fred House, a veteran frontiersman of that section arrived here today and asked Gov. Culberson that the Americans there be empowered to organize troops of cavalry at their own expense for the protection of their homes against the Mexicans. The authority has not yet been granted.

Col. House states that the marauding Mexicans openly assert that Texas rightfully belongs to Mexico and that they are going to take advantage of the present opportunity to whip the Texans and win the State back to Mexico.

## MARSHAL IN A DILEMMA.

Has Been Ordered by Court to Take a Chinaman Back to Cuba.

Tampa, April 27—United States Commissioner Crane had before him today ten Chinamen charged with being in the United States in violation of the Chinese exclusion act. The trial resulted in six of the cases being continued, three men being acquitted and one ordered deported to Cuba, whence he came.

The ruling of the Judge was in accordance with the law, and the United States Marshal who was ordered to deport the Chinaman is in great trouble about complying with the order, as he fears serious difficulty in getting through Capt. Sampson's blockade and in getting back alive from the Spaniards if he succeeds in reaching Havana.

Meanwhile the Chinaman is unconcerned, as he is living at the expense of the United States.

### Next Wednesday at 3 p. m. Matinee.

Next Wednesday at the Academy of Music Mr. James Young, who has become a national ideal, will give his production of Hamlet, in which he has won unmistakable fame wherever he has played.

The colleges and schools at Nashville, New Orleans, Columbia, Asheville and other places where he has appeared attended his performance in a body.

Mr. Young is one of the handsomest young men on the stage—has a most pleasing personality and the ladies especially are enthusiastic about the young southern actor.

Let every woman and child turn out next Wednesday afternoon and give Mr. Young the largest matinee in the history of Greensboro.

The price has been fixed at 50c. to any part of the house. Little children 25c. No reserved seats.

### FIFTEEN NEW DWELLINGS

To Be Erected at Once on Summit Avenue.

The material is now being prepared and delivered by the Brooks Manufacturing Company, of this city, for a number of first-class new dwelling houses on Summit Avenue. We learn there are to be fifteen of them, all modern and beautiful structures. The contract calls for first-class lumber and other material.

Contractor Fries, who is just completing a number of new buildings for the Proximity Manufacturing company has the contract for these new buildings and we learn that work will begin on them at once. Ten car loads of framing have already been delivered and today a car load of dressed material will be sent out from the mill.

With the addition of these new buildings, Summit Avenue, with its splendid grade, will begin to present a very handsome appearance.

### Last Night's Services.

A large congregation heard Mr. Needham's sermon last night on the subject of "The Atonement" and most powerfully was that precious old doctrine presented. There was deep interest manifested and quite a number asked for the prayers of the Christian people, and there was one profession. Never was a meeting more quietly conducted and free from all excitement. The preaching is intensely Biblical. "Christ and Him Crucified," is the burden of the preacher's message. The close attention given the preacher shows that the gospel has not lost its charm and that the Christ lifted up, yet draws men to Him. The afternoon services are a "feast of fat things" to Christian people.

## Our Opening Day

Was a most emphatic success. It was not an opening simply in name, where a handful of old, decrepit or discarded styles were shown, but it was a glorious opening. Every article fresh as the morning dew, and it will go on tomorrow and all the balance of the week with a vigor, with an earnestness created only by bargains superabundant beyond any ever displayed in this city. Our display of

New Silks, Organdies,

Lawns, Laces,  
etc., etc.

was voted by every lady who attended as the most successful, the most novel and original display ever shown in Greensboro.

All those fetching swaggers and up-to-date styles that would cost double everywhere else, are here tomorrow and all the balance of the week.

We shall never deviate from the policy originally laid down of handling only the best goods.

We know to a certainty that true success must be based upon the substantial rock of quality, and to handle nothing but the best would never satisfy either ourselves or the public.

But such universal popularity as our store has attained in so short a time is not based solely upon carrying the best merchandise, we make it a point to sell at small margins of profit, never making a price on an article until we know it is the lowest figure at which that article can be sold. The public will soon learn to know this.

We heartily thank the people of Greensboro for the hearty welcome they have extended us.
